**Professional Skill:**

1. As a researcher, I have the intellectual and professional wealth, which provided me the opportunity to deliver my clinical and research skills for the animal welfare. My vision for research in veterinary surgery is to provide a sustainable research platform and to ensure effective and efficient knowledge transfer and training to the students.
2. As a teacher, I always enjoy working with the students, help them to develop clinical and research skills and love to share the professional interactions. I like to take complicated topics and make them appear simple so that students can learn instead of being intimidated. I always like watching them grow in confidence as they make supervised clinical decisions.
3. As a clinician, I have encountered variety of challenging clinical cases in different species. I'm specially drawn to surgical treatment of various affections and multiple traumas in animals because it requires us to be creative and able to perform in every area of the body.
4. I have the ability to work effectively as a member of a multi-disciplinary team in the delivery of services to clients and employers; communicate effectively with the public, professional colleagues and appropriate authorities.

**Membership in Professional Society:** Life member of Indian Society for Veterinary Surgery.
